BUTYL CLEANER & DEGREASER

DIRECTIONS:

This all-purpose cleaner can be used on any hard surface that is not damaged by water. It is applicable to both manual and pressure washing equipment. Dilutions will vary from full strength to 1 oz to a gallon, depending on soil accumulations and the nature of the surface. Hot water will reduce cleaning time and improve performance. Released soil should be removed by rinsing with clean water or wiping with a clean cloth or sponge. Use less water or soak longer for heavily soiled surfaces.
