SUPER DRI

RINSE AIDE CONCENTRATE

DESCRIPTION:

Super Dri Rinse is especially blended for low or high temperature dish washers. Super Dri Rinse helps prevent spotting by causing the water to free rinse and dry within minutes. Depending on water conditions the injection system should set to deliver 4 cc per cycle. If temperature in Dish Washer is allowed to drop below 120 degrees, excessive sudsing may result. For best results Super Dri Rinse should be used at 140 degrees.

PHYSICAL PROPERTIES

APPEARANCE: Thin, clear, blue liquid.

Specific Gravity: 1.01

Odor: Light chemical

pH: 7-8

PACKAGING

Stocked in gallons and pails.

Other sizes available.
