

H1410

BIO-ZYME

BIO-ENZYMATIC DRAIN MAINTAINER AND ODOR ELIMINATOR

DIRECTIONS:

General Odor Control: To eliminate odors caused by vomit, spoiled foods, decomposed animals, animal waste, areas with garbage cans, waste receptacles, locker rooms, carpet, etc. Spray product directly on malodor and allow the bacterial action to ingest the material while pleasant fragrance immediately neutralizes the odor.

Carpet Deodorizing & Digesting Organic Waste: 1) Spot clean and vacuum carpet thoroughly. Mix $\frac{1}{2}$ to 1 pint of product per gallon of water. Apply with pump or hand sprayer. Keep moist at least 30 minutes. Repeat if odor persists. 2) Use in conjunction with carpet cleaning equipment. Use $\frac{1}{2}$ to 1 pint to every gallon of mixed cleaner. Use with all types of carpet cleaning equipment and methods, including tank, brush, bonnet and extraction cleaning.

Recreational Vehicles & Boats: Add 2 oz. per gallon of water in hold tank. Thereafter, use 1oz. per gallon as needed. For use at a dump station, add 1 gallon per 50 gallons of tank capacity. Use 1 pint per week for maintenance.

Septic Tanks: Add 1 pint per 25 cu. ft. capacity for initial treatment. Thereafter, use 8oz. per week. This may be poured directly into a toilet and flushed. If septic tank has become clogged and odorous, add 1 gallon of product directly to the tank through the manhole.

Grease Traps: For traps less than 20 cu. ft. capacity, add 4-5 oz. of product daily by pouring into a sink or pipeline closest to the trap. This should be done at night or when the traps are used the least. After adding, flush down with a cup of lukewarm water. For grease traps larger than 20 cu. ft., add 8-10 oz. daily using the same procedure.

Drain Line & Down Pipes: Use product a minimum of 2 times weekly, to a maximum of 4 times depending on the usage of the building. Add 4oz. of the product for each 2 inches of pipe size by pouring directly into the drain pipe. Begin on the lowest floor and work up at the rate of one floor every day. Do not treat the same floor twice. When the top floor is reached, continue treatment from the top floor only.

For Industrial & Commercial Use Only

PHYSICAL PROPERTIES

APPEARANCE: Milky white liquid

Specific Gravity: 1 .005

Odor: Sharp

pH: 7.5

Solubility in water: Soluble

PACKAGING

Stocked in quarts and gallons.

Other sizes available.
