

H1485

ROOF AND DECK CLEANER

DESCRIPTION:

For Shingles, Woods, Brick, Concrete and more....This product was developed to clean badly stained concrete and bricks as well as wooden decks, siding, fences, asphalt shingles and cedar shake roofs. It removes weathering, mildew and algae stains, grease, oil, dirt, tree stains and pollen. Concrete is cleaned and whitened.

DIRECTIONS:

Shake well before mixing with water. Apply generously with a pump-up type garden sprayer set on maximum spray or run through a pressure washer without further dilutions. For pressure washing machines, adjust dilution based on machines' injection rate. Spray entire surface to avoid streaking. If pump-up sprayer is used, maintain maximum spray and hold nozzle within 12 inches of the surface. Wait sufficient time depending on degree of soil, before hosing off or pressure washing. If hosing use maximum force and hold 8 inches from the surface. If pressure washing, reduce water pressure to avoid damage to shingles. To clean asphalt Shingle Roofs, spray generously with 4:1 dilution. For badly stained areas, spray first and then again during spraying operation. Begin at gutter and work side to side and backward to crest. Wait sufficient time depending on degree of soil accumulation; then starting at crest, rinse per above instructions. Before rinsing, wet 6 rows of shingles in front of you and wait 5 minutes. This makes rinsing easier. Rinsing process will wet other shingles, and foreign matter will be cut loose. Rinse until all discoloration is washed away. It is safe to walk on thoroughly rinsed shingles without slipping. To clean cedar shake roof, follow above instructions, but do not walk on cedar shake until rinsed and dried. To clean concrete, dilute 4:1 with water. Spray generously and wait for 30 minutes. Brush or force with hose or pressure wash. Concrete will whiten when dry. Roof & Deck Cleaner WILL NOT REMOVE rust stains from concrete.

PRECAUTIONARY STATEMENTS:

Do not eat, drink or smoke when using this product. Avoid release to the environment. Wear gloves and protective eyewear. If swallowed: Call physician if you feel unwell. If swallowed: rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a physician. Rinse mouth. Wash contaminated clothing before reuse. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

PHYSICAL PROPERTIES

APPEARANCE: light orange -
brown liquid

Specific Gravity: 1.10

Odor: Characteristic

pH: >=13

Solubility in water:: Soluble

PACKAGING

Stocked in gallons.
