ULTRA T.L.C. TRAFFIC LANE CLEANER

Pre-spray for Carpet and Upholstery

DESCRIPTION:

Ultra TLC is a professional strength blend of synthetic detergents, degreasers, and special surfactants that emulsify tough ground in soil. TLC works on water and oil based soils. To achieve best results, and to save on labor, you will need to pre treat the traffic areas. Pre-treating will also help prevent over wetting of heavily soiled areas. *Always test a small inconspicuous area of fabric before applying Ultra TLC.*

DIRECTIONS:

Mix 1 part of TLC with 32 parts of warm water. Spray on heavily soiled areas and all spots and stains. Allow 5—10 minutes dwell time before extraction. Use 32 oz. Ultra TLC in a hydro-force.

PRIMARY = X SECONDARY = O

Manufacturer / Distributor is not responsible for any loss, damage, or injury if product is used in any manner not consistent with label

Residential Carpet	Commercial Carpet	Upholstery
