

P196

COIL CLEANER

ALKALINE HI FOAM

DESCRIPTION:

Coil Cleaner is highly concentrated product for use in cleaning coils in heating and air conditioning units. This product may harm some plastics, rubber and painted surfaces. Do not use on floor finishes. It will remove the finish. Always predetermine the product's compatibility in an inconspicuous area of the surface you may wish to use it on. The use of rubber gloves is recommended in order to avoid de-fatting the skin which results in chapping. Keep container tightly capped when not in use.

For industrial and institutional use only.

DIRECTIONS:

Dilute one part concentrate to four parts water. Spray directly onto fins and coils. Turn unit on and normal cycling will create condensation which will activate concentrate and keep coils clean and odor free continuously. For simple application a portable hand pump sprayer is recommended. For immediate and faster cleaning allow diluted concentrate to remain on coils and fins for five minutes, giving deep penetration, then rinse with clean water.

PRECAUTIONARY STATEMENTS:

Do not breathe mist. Wash hands, forearms and face thoroughly after handling. Wear gloves and protective eyewear. If swallowed: rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Wash contaminated clothing before reuse. Store in a well-ventilated place. Keep cool. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

PHYSICAL PROPERTIES

APPEARANCE: Clear light yellow liquid

Specific Gravity: 1 .06

Odor: Chemical

pH: 13-14

Solubility in water:: Soluable

PACKAGING

Stocked in quarts and gallons.

Other sizes available.
