

P204

FABRIC SOFTENER **SCENTED**

For Industrial, Institutional, & Commercial Use Only

DESCRIPTION:

This rich, silky lotion which completes the laundry cycle by leaving fabrics soft and static free. It is a multi-purpose product that is the ultimate in fabric finishing. It neutralizes detergent build-up. It contains optical brighteners that produce a new appearance by reviving whites and brightening colors. It yields effective softening at a very low cost, and the softening effect stays with the fabric linen. This product does not contain any toxic agents or pollutants. It does not build up on fabrics and will not result in graying or dulling. Regular use can actually double fabric life by bringing it back to its natural pH level. This product is completely safe when used as directed. It is completely biodegradable and will not adversely affect septic tank function. It is recommended for both commercial and household machines.

DIRECTIONS:

Program dispenser to add a correct amount of sour/soft to the final rinse. After all items are set, run test load of typical items and check for detergent alkali presence on fabrics. Adjust concentration as necessary. Dry the test load and check for softness.

PHYSICAL PROPERTIES

APPEARANCE: Yellow liquid

Specific Gravity: 0.99

Odor: Pleasant

pH: 6-8

Solubility in water:: Complete

PACKAGING

Stocked in quarts and gallons.

Other sizes available.
