ENZYME LAUNDRY SPOT-TER

DESCRIPTION:

Fresh Enzyme Spotter is a concentrated laundry spotter and wash additive. The unique enzymatic activity of Fresh Enzyme Spotter allows for quick penetration, digestion, and removal of the toughest stains and soils. Utilizing Fresh Enzyme Spotter as part of a complete laundry care line will reduce rewash and increase linen life. The proprietary blend of enzymes found in Fresh Enzyme Spotter allows for the quick removal of many types of stains particularly protein, starch. Examples of protein stains are blood, egg, grass, dairy products, and bodily fluids. Examples of starch based stains include pasta and fruit stains, sugar based stains, sauces, baseball and tennis court red clay. On most fabrics, Fresh Enzyme Spotter will not contribute to fabric degradation.

Use Fresh Enzyme Spotter to remove these common spots: • blood • fruit • egg • red clay • grass • bodily fluids • dairy • sauces

DIRECTIONS:

DO NOT MIX WITH OTHER CHEMICALS. Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet.

As a Pre-Spotter: 1. Spray Fresh Enzyme Spotter liberally onto suspected stains. 2. Allow to remain on stained fabric for at least 5 - 10 minutes before initial laundering. **As a Pre-Soak:** Fresh Enzyme Spotter can also be used as a presoak for heavily soiled or stained fabric. **When used as a Pre-Soak,** Fresh Enzyme Spotter can be used in concentrated form or diluted down to 1:5 depending on soil load levels. 1. Place stained fabric in a suitable containment vessel. 2. Pour Fresh Enzyme Spotter directly on stained fabric or diluted down to 1:5 depending on soil load levels. 3. Allow stained fabrics to soak for at least 15 minutes before initial laundering. **As an Enzyme Wash Additive:** Fresh Enzyme Spotter can be used as a wash wheel additive to help digest and break down stubborn stains quickly and more efficiently. 1. Add 2 - 3 oz. (¼ to 1/3 cup) per wash load in addition to your regular laundry chemicals. 2. For wash load sizes above 100 lbs., add 4 - 6 oz. of Fresh Enzyme Spotter. 3. Extremely heavy stains and soil loads may require an additional wash cycle.

FIRST AID:

In case of **contact with eyes**, immediately wash eyes with running water for 15 minutes. In case of **contact with skin**, wash affected area with soap and water. Remove and launder contaminated clothing before re-use. Call a doctor if eye or skin irritation develops. **If swallowed**, immediately induce vomiting by sticking finger down throat. Never give fluids or induce vomiting if victim is unconscious or having convulsions. Call doctor at once.

PHYSICAL PROPERTIES

APPEARANCE: Milky white liquid

Specific Gravity: 1 .0

Odor: Fresh scent

pH: 7.5

Solubility in water:: Complete

PACKAGING

Stocked in quarts and gallons.

Other sizes available.
