PERMACOTE

FLOOR FINISH - High Gloss, Long-Lasting, Excellent Slip

Resistance, Scuff Resistant & Buff-able, Great in High Traffic Areas, User Friendly

DURABLE SELF-POLISHING FINISH FOR ALL TYPES OF FLOORS!

DESCRIPTION:

Reflect Your best image with Permacote! Get wet look gloss on only the second coat! Makes floors shine and shine and shine! Premier Permacote is a water based resinous metal cross linked product made from non-yellowing acrylic polymers and synthetic bases. The durable protective coating is extremely resistant to dirt and black-marking. With periodic buffing, scuffmarks disappear and the original luster is renewed. Premier Permacote has excellent water resistance.

DIRECTIONS:

Clean floor of dirt and old wax. Allow to dry thoroughly. Apply finish in a thin even coat using a clean mop head./ High traffic areas may require more than two coats. Allow floor to dry to a brilliant lasting finish (approximately 30 minutes) - buffing is unnecessary.

Maintenance: To maintain a lasting finish, dust mop floor regularly and wet mop using a solution of Neutral Plus and water.

Permacote delivers excellent coverage. Up to 2500 square feet on the first coat and up to 3000 square feet on additional coats.

PHYSICAL PROPERTIES

APPEARANCE: Milky White Liquid

Specific Gravity: 1 .055

Odor: Characteristic

pH: 8-8.5

Solubility in water:: n/a

PACKAGING

Stocked in gallons and pails.
