

P645

OXI-SAFE STABILIZED 20% HYDROGEN PEROXIDE

DESCRIPTION:

Hydrogen Peroxide bleaches faster and removes all impurities through a sterilizing process. This product removes yellowing which can occur on cotton fabrics. This product is specially formulated to resist the effects of heat and light. **For Professional Use Only.**

The stabilized product maintains its potency for up to one year.

DIRECTIONS:

Dilute 6 parts water and 1 part hydrogen peroxide and apply it directly to the stain. Let it set. Blot up using a dry towel or sponge. If needed, repeat until stain is gone.

As a spotter spray directly on spot. Color test. Use straight

As a booster with traffic lane cleaner, dilute 8 oz per gallon of finished solution to brighten treated carpet.

Use as a booster in Acid tile and grout cleaner to brighten. 8 oz per gallon of finished solution.

For Terrazzo use straight. Flood floor. Cover with plastic film if possible. Let sit overnight to get out stains.

PHYSICAL PROPERTIES
